

Where There's a Wall Collage Comments

-Caden Shwetz

The photos I included in my collage were all things mentioned in the poem. The author included all of these items in the poem as ways to get over the wall in the poem. Ranging from a ladder to a helicopter it is clear the contrast between the items used to scale and unlock, what the reader must only believe as secrets kept behind the wall in the poem. The phrase "a way" is mentioned in the poem as well as the thesis of the poem being where there is a wall, there is a way.
